

Codice: VLLCMPNLL - Scala

Villa is located in Scala, the most ancient city on the Amalfi Coast, bordering Ravello (2.5 Km), in the medieval hamlet of Minuta. The large garden surrounding the Villa protects it from the outside world, making it hidden and impenetrable, far removed from the noise and clamor of modern life. This place is filled with magical atmospheres: the view, which is different from every terrace and observation point, is truly breathtaking and the climate, always cool and temperate even on the hottest days, makes it the perfect place for relaxing and enjoying creative idleness. The Villa occupies a covered area of 500 sq. meters and is situated inside a 4,000 meter park. The large panoramic terrace with ancient stone basins and wisteria-covered arcades is the heart of the house. A large panoramic swimming pool (7x14 m) with whirlpool and a small sports field with artificial turf (for basketball, badminton, ping-pong and five-a-side football) can be found amidst the greenery of the garden. The vegetable garden provides fresh natural produce for the kitchen.
